

YOUR PATHWAY TO SUCCESS

Placement Highlights

About ISDM

ISDM is India's first-of-its-kind development management institute that has developed a program centered on real-world application of management principles in the social sector. The program is created by industry veterans, practitioners, researchers and academicians.

ISDM's Post Graduate Program in Development Management is created for young leaders who aspire to make an impact in the social sector.

This 11 months program blends ideas of development with concepts of management, combines in-class sessions with a two-week field component called **Realising India**, and promotes collaborative group work.

At ISDM, students are exposed to thought leaders and influencers from the industry to make them future-ready for growth, lead organisations, and create impact at scale.

ISDM approach

Strengthen the foundation of management with a 360° Curriculum designed to meet the needs of the social sector

Kick-start your career with ISDM where we prepare you to not only be the best but also find your place in leading Social Purpose Organisations

Develop an on-the-ground understanding of the complexities of managing Social Purpose Organisations through immersive learning methodologies

Gain opportunities to network with CEOs, top industry executives and global leaders, with our unique mentoring program

Student-centric placement

A unique approach

The placement process at ISDM is essentially student-centric. The information that the students share in conversations with the Placement team all round the year helps the team understand their preferences and the type of roles and organisations that they are most inclined towards. Additionally, during the placement process, students are supported, guided and enabled till the end to apply for roles that resonate the most with them. This 'reverse' process is what makes the placements at ISDM unique.

What does ISDM's Placement process offer?

- Student Placement Committee elected by students and nurtured to drive placement activities
- Upskilling & capacity-building sessions to appraise with opportunities in the sector
- CEO Talks, and talks with alums & industry experts throughout the year
- Mentoring by writing preceptors and guides to write in the discipline
- Mentoring by ISDM Alums across the terms on current trends of the sector
- Dedicated coaching sessions on creating résumés & personalised cover letters
- Mock interviews and feedback to make students placement-ready

ISDM's Placement Success

300+ 

Placement Partners

that help you find your place in leading SPOs and devise solutions to create impact at scale

17+ 

Social Startups

founded by our alums in areas such as solar power, health, livelihood and waste management

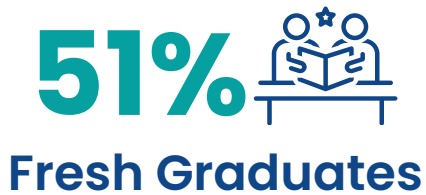

330+ 

Alums

successfully working in various National, International and Government organisations in the sector

Our students form lifelong relationships at ISDM and continue to remain a tightly knit community even after graduation. Alums continue with mentorship, career guidance, attending talks and lectures at ISDM, and many even work at ISDM!
