## ABOUT THE EVENT

The Department of Computer Science & Engineering in collaboration with the Computer Society of India (CSI SBC) VNRVJIET is conducting the 4th edition of the VJ Hackathon 2024 - Victory and Joy in Smart Innovations.

This 24-hour National level hackathon will take place on the 28th & 29th of October, 2024, in the vibrant campus of VNRVJIET, Hyderabad. This hackathon has been meticulously tailored for students of all year levels and engineering streams, with participants and jurors coming from all over the country including IITs, NITs, and IIITs.

Each team, consisting of up to three students, may be accompanied by a mentor if desired. Teams are required to choose one problem statement from the following domains: Healthcare, Agriculture or Education & E-Governance. Teams must prepare an abstract outlining their proposed solution and submit it in either PPT or PDF format by October 11th, 2024. After a comprehensive evaluation of the submitted abstracts, the shortlisted teams will be announced on October 21st, 2024.

The teams shortlisted for the finals will need to pay a registration fee of Rs. 500/- to secure their spot. They are also responsible for arranging their own travel to VNRVJIET, Hyderabad as travel allowance will not be provided. Once on campus, these elite teams will be engaged in a thrilling 24-hour hackathon, bringing their innovative solutions to fruition.

A distinguished jury panel, consisting of experts from prestigious institutions across the country, will evaluate the teams based on set criteria. It is through this rigorous evaluation that the champions of VJ Hackathon 2024 will rise.

PRIZE  
POOL OF  
**1 LAKH !**
